

Going the extra mile for you!

Galvanized dipped mild steel subframe, suspension hangers, and brackets.

Heil's 6-Axle, 13,400 Gallon Petroleum Trailer Product Profile

Michigan's Unique Market Conditions

Trailers operate in extreme weather, over suspect road surfaces, and in congested urban traffic

Fleet operators value efficient / low maintenance equipment

What Problem Does Heil Solve?

Design a trailer to satisfy demanding Michigan weight laws / market conditions

The Heil Solution

100 + years of tank trailer expertise

Emphasize "voice of customer" in new product design

Heil's reputation as a manufacturer of customized trailer products

The Heil Difference

The 6-axle, 13,400 gallon petroleum tanker's standard options are unmatched

- Galvanized dipped mild steel subframe, suspension hangers, and brackets.

- Galvanizing eliminates corrosion and mild steel is proven to be the most affordable, long lasting subframe material.

Intraax AA250 air ride suspension on all axles, including four fixed down axles and two lift axles.

- Improved ride performance, greater pulling efficiency, and improved tire wear.

- Location of Truck Lite LED lights are an additional safety feature.

- Equipped with the Civacon/Knappco System3 package.

Heil product is backed with "best in class" after-the-sale service.

- Standard four (4) year limited warranty on the trailer vessel, in conjunction with the Civacon "Systems3" three (3) year warranty on Civacon/Knappco parts.

- Heil's Technical Service Department available 24 / 7 using a convenient 1-800 telephone line.

Heil's partnership with Scientific Brake and Equipment.

- Service, spare parts, and trailer sales at three Michigan locations Saginaw, Gaylord and Alpena.
